High Efficiency. High Quality. **HIGHER YIELDS.**

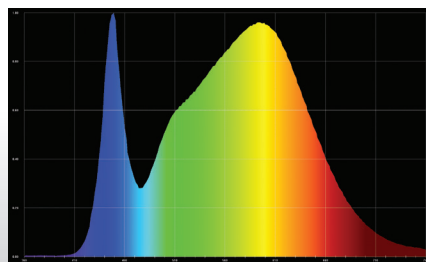

LED 8 Tube T5 Replacement

The NextLight Veg8 Switch is a full spectrum bright white LED grow light designed to efficiently replace a fluorescent 8 tube T5. This unit uses half the power, produces minimal heat and is silent. Using NextLight's Full Spectrum you will see faster growth, tighter internodal spacing and increased production overall. The "switch" allows this single unit to perform at either 190 watts or 60 watts for varying light intensity needs.

Unit Footprint/PPF

- Flower: Not Rec.
- Veg: 2 ft x 4 ft
- PPF: 380
- PPF/Watt: 2.0

NextLight's Full Spectrum has been specifically designed to outperform the HPS spectrum, providing the same sun-like qualities plants love without the negatives of high energy requirements and high heat.
